

SOUTHAMPTON GENERAL HOSPITAL CHARITABLE DONATION TO LOCAL CHARITY

At the completion of the project, a £1,000 donation was made to Southampton Hospitals Charity to support services at Southampton General Hospital. The funds were raised collaboratively by the LST site team through a simple initiative, where subcontractors contributed £1 per day to park within the site compound throughout the duration of the project. This collective effort was then matched by LST Projects, doubling the amount raised and increasing the overall impact of the contribution. The donation was provided directly to the charity without restriction, allowing funds to be used where they were most needed. This flexible approach ensures support can be directed across a wide range of hospital services, benefiting patients, families, and healthcare staff.

What we did:

- Implemented a £1 per day subcontractor parking contribution across the project.
- Encouraged site-wide participation to support a meaningful cause.
- LST Projects matched the total raised, doubling the final donation.
- Donated £1,000 to Southampton Hospitals Charity.
- Enabled the charity to allocate funds where demand and need were greatest.

Social Value Impact

Support for communities in need

- Contributed to improved care and support services across the hospital.
- Helped enhance patient and family experience during care and treatment.

Health & wellbeing

- Supported initiatives that improve hospital environments and patient wellbeing
- Contributed to better outcomes through enhanced resources and support services.

Stronger communities

- Brought together the project team and subcontractors to support a shared cause.
- Strengthened relationships with local healthcare organisations.

Responsible and caring business practice

- Demonstrated a practical and inclusive approach to fundraising on site.
- Reinforced commitment to delivering positive social value within the community.
